# JIRA Client

The screenshot displays the JIRA Client application window. The title bar reads "JIRA Client - C:\Work\ALMWorks\Workspaces\ALMWorks.JIRA". The interface includes a menu bar (Issue, Search, Connection, Time, Tools, Help) and a toolbar with icons for "New Issue" and other actions.

Thanks for the idea!
- This is really not a workaround but a very powerful feature - because you can set up queries as you like and drag-and-drop issues to make them satisfy the query's filter (not always possible, of course).
- The right-click menu currently pertains to the single bug the input is focused on. We could add "change severity" there as
